Sacred SoundWorks Retreat: Sounding Love

June 14-21st, 2018

Nature Bridge Campus on Lake Crescent, Olympic National
Park, Washington, USA.

I invite and welcome you to 2018 Sacred SoundWorks Residential Retreat

Our focus will be to uncover, recover, to access our inner wisdom, continuing to embrace our shadow, and greater freedom to practice unconditional love. If we love something enough it will reveal all of its teachings.

The Rainforest calls us . . . We come together this year in the bountiful beauty of the Olympic rainforest to bathe in its healing and constantly forgiving ways. I have experienced the phenomenal healing of mind body and spirit from being within its embrace. I am grateful for this opportunity to share the healing energy of the old growth forest, the Olympic Mountains, Pacific Ocean and all the teachings that are revealed within this sacred terrain. The power and generosity of this nature provides an underlying influence as we explore the effect of the environment on our voices, our mind-body connections. There are quiet times included each day for silence, listening and deep resting in this rainforest environment.

Consider joining us this summer to spend a week learning and practicing using your voice as your medicine, as your healer. Many self-care & mind-body techniques will be shared, including the use of frequency plus intention for your personalized healing and self-calibration. During this week, we will practice living with Unconditional Love toward ourselves and each other.

This year we will be joined by special guest teacher Karina Quiroga from Buenos Aires, founder of the Mandala Sound School in Argentina. She is a most accomplished teacher using voice, drums and emotional rhythm. Also joining us will be our resident herbalist Mary Jo Hoven, and guest teacher/astrologer Stephanie Austin will offer insights of our journey together.

*I do not teach Sound. I guide you in finding Sound as your teacher.
Sound has been my teacher throughout my life.*

Blessed Be, Vickie Dodd
